

# (4) Battery Electric Buses C-TRAN

Project Completed: Nov 2023

## Project Information

RTC funding: \$1,100,000 CMAQ

Total Project Cost: \$1,271,677

Project Type: Transit

Project Length: 0.00 miles

Function Class: Not Classified

Daily Traffic Volume:

## Project Description

Purchased four (4) 40-foot battery-electric buses to replace diesel vehicles past their useful life. By going with electric, C-TRAN will help reduce the agency's carbon footprint. Battery-electric bus and battery technology have evolved substantially in the past few years to increase the range enough to cover typical mileage covered by a transit vehicle.

## Project Benefits

- Increase efficiency
- Reduce maintenance costs
- Zero-emissions
- Reduce energy consumption

## Project Funding

Phase	Year	Federal Funds	Other Funds	Total
Design				
Right of Way				
Construction	2023	\$1,100,000	\$171,677	\$1,271,677
Total		\$1,100,000	\$171,677	\$1,271,677
